Servotech collaborates with UK-based Ensmart Power to Expand EV Charger Business in the UK and Beyond

New Delhi, 16th October '24: Servotech Power Systems Ltd., India's largest EV charger manufacturer, and UK-based **Ensmart Power**, a pioneer in Critical Power, Solar, and Energy Storage Systems, has signed a sole distribution agreement to expand their EV charger distribution network across the UK and beyond, including North America.

This agreement will capitalize on the rapid growth of electric vehicle adoption in these regions. By combining Servotech's innovative EV charging solutions with Ensmart Power's expertise in energy storage and distribution, the partnership aims to provide a reliable and accessible charging infrastructure for consumers. The collaboration will drive the development of green mobility alternatives, contributing to a carbon-neutral transportation ecosystem and setting new standards in efficiency, reliability, and environmental responsibility.

Raman Bhatia, Founder and Managing Director, Servotech Power Systems Ltd. commented, "This collaboration is a strategic move to establish a strong international footprint and bring innovative solutions closer to overseas users, with an emphasis on local production. Servotech aims to deliver world-class EV charging solutions and this partnership will allow us to localize Ensmart Power's global expertise and address the increasing demand for innovative charging solutions. Each charging point will contribute to a comprehensive network of stations, accessible to all electric four-wheelers, enhancing the on-the-go charging experience for e-mobility users in the UK and other regions."

Deniz Taner, Managing Director, Ensmart Power stated "We are thrilled to associate with an industry leader like Servotech. Having worked with Raman Bhatia for more than a decade, this solidifies our relationship as we aim to cross-pollinate IP and ideas to ensure the collective businesses go from strength to strength. We are excited about making EV charging
