Servotech Secures 5.6 MW On-Grid Rooftop Solar Power Plant Project from UREDA

New Delhi, 28th November '24: Servotech Power Systems Ltd., India's leading solar products manufacturer has secured **5.6 MW On-grid rooftop solar power plant** order from **Uttarakhand New and Renewable Energy Development Agency (UREDA)**. The order valued at Rs. 30.2 crores will act as a major push in building a solar powered state, overall, bringing India closer to becoming a solar powered nation.

Servotech will be responsible for **designing, supplying, installation, net metering, testing and commissioning** of On-Grid rooftop solar power plants. Further, project also involves Servotech to deliver comprehensive **warranty maintenance for the next 5 years**, tending to **1 kW-1500 kW on-grid rooftop solar** installations done at **various strategic locations** which includes **government offices, colleges, buildings, hospitals and institutions** etc. across the state contributing to the **state's renewable energy goals and decarbonisation**.

Commenting on the order, Sarika Bhatia, Director, Servotech Power Systems Ltd. said, we're elated to work with UREDA in enhancing our green efforts by capitalising on enhancing the energy access and sustainability for the natives in Uttarakhand. The company's proven track record of providing exceptional and efficient solar solutions has established the company as a reliable partner among the nodal agencies and created a strong niche in India's renewable energy market. We are confident that our reliable solar solutions will empower Uttarakhand with clean, reliable, and affordable solar energy. This project aligns with our vision of a sustainable future and will contribute to the state's energy security and environmental goals.
